

Set of Rules:

1. At least 4 players
2. The number of rounds is equal to the number of players.
3. Each round is only 5 seconds.
4. Numbers have to be 1-50
5. Every player has to write down their number on an index card
6. The winner is the one who chooses a number closest to the specific chosen number if the specific number was not picked.
7. The player who wins that round gets to be the one who chooses the next number. If that person already won once, the person next in line gets to choose that round instead.
8. At the end of each round and before each player's numbers are revealed, the person with the chosen number has the decision to switch points of 2 other players or switch their total points with another player.
9. The player with the most points at the end of rounds wins.
10. Points System:
 - 4 points: exact #
 - 3 points: within the range of 5
 - 2 points: within the range of 10
 - 1 point: within the range of 11+
